

Children learn best when they feel safe. Little Fox teaches them how.

Illustrated books and classroom resources for emotional literacy. Written for ages 3 to 8.

WHY IT MATTERS

Children who can name their feelings are better at learning, better at friendships, and better at asking for help when they need it. Most schools know this. Most schools struggle to find the time.

Little Fox gives you a complete, ready-to-use resource that fits inside a single lesson. No extra prep. No specialist training needed. Just a story that opens the conversation, and materials that keep it going.

WHAT COMES WITH EVERY BOOKING
